

In The Claims:

Please replace the previously presented claim set with the following replacement claim set:

1. (Currently Amended) An agrochemical composition comprising (a) a non-encapsulated aqueous solution or dispersion of an agrochemical and (b) a suspension in said aqueous solution or dispersion of a microencapsulated liquid, water-insoluble, bioperformance-enhancing adjuvant for said agrochemical, wherein the adjuvant comprises a compound having formula (I) or an alkoxylated derivative thereof

wherein R is a branched or straight chain alkyl or akenyl group having from 12 to 20 carbon atoms and X is selected from hydroxy; primary, secondary, tertiary or quaternary amine; amine oxide; phosphonate; phosphate; phosphate ester; thiol; sulfoxide; sulphone; sulphonate; sulphate; a heterocyclic moiety; glucoside; polyglucoside or alkylated glucoside; sarcosinate; betaine; amidoamine; carboxylic acid; amide; ester; ether sulphate; ether amine; ether carboxylate; and ether phosphonate.

2. (Original) A composition according to claim 1 wherein the adjuvant has a Hydrophile/Lipophile balance (HLB) of 9 or less.

3. (Previously Presented) A composition according to claim 1 which is an aqueous agrochemical concentrate composition.

4. (Currently Amended) A composition according to claim 3 wherein the concentration of the agrochemical in the concentrate composition is from 1 to 500 g/l.

5. (Canceled)

6. (Currently Amended) A composition according to claim 5 1 wherein the group -X is alkoxyated provided the HLB of the adjuvant is not greater than 9.
7. (Original) A composition according to claim 6 wherein the alkoxy group contains from 2 to 4 carbon atoms.
8. (Currently Amended) A composition according to claim 5 1 having an average of 1 to 2 ethoxy groups per adjuvant molecule or from 1 to 20 propoxy or butoxy groups per adjuvant molecule.
9. (Currently Amended) A composition according to claim 5 1 wherein R is an optionally alkoxyated branched or straight chain alkyl or alkenyl group containing from 16 to 20 carbon atoms.
10. (Original) A composition according to claim 9 wherein R is an optionally alkoxyated C₁₈ branched chain alkyl or C₁₈ alkenyl group.
11. (Original) A composition according to claim 10 wherein R is optionally alkoxyated oleyl or isostearyl.
12. (Currently Amended) A composition according to claim 1 wherein the ratio of the adjuvant to the agrochemical is from 1:50 to 200:1.
13. (Previously Presented) A composition according to claim 1 wherein the adjuvant is dissolved in a solvent prior to encapsulation.
14. (Previously Presented) A composition according to claim 1 wherein the adjuvant has the formula (II)

wherein R_1 is a C_{16} to C_{20} straight or branched chain alkyl or alkenyl group, R_2 is ethyl or isopropyl, n is from 8 to 30 and m is 0 or 1 and when R_2 is ethyl, R_3 is a C_1 to C_7 alkyl group and when R_2 is isopropyl, R_3 is hydrogen or a C_1 to C_7 alkyl group.
